

Financial Governance 201

Programme overview

Financial Governance 201 considers the importance of understanding the concepts of asset management, including the implications of different levels of service and how these relate to financial reporting, and the consideration of external reporting standards. It also considers funding principles, including rating and monitoring debt.

Purpose

The emphasis is to provide the linkage between asset management and financial statements, and to explore the principles of funding including rates and debt.

Target audience

All elected members who need a further understanding of financial governance.

Learning outcomes

By the end of this workshop you will be able to:

- › identify key components of reporting and how they link to the external financial standards;
- › identify the funding options including the uses of debt that are available to councils; and
- › identify the financial impacts of asset management including the impacts of different levels of service.

Workshop fees

\$680 per person, excl. GST

Workshop timings

9am – 4:30pm
